A SMALL REMINDER TO STAY CONNECTED TO WHAT MATTERS.

Materials: Polymer clay, acrylic paint, protective varnish
Finish option (choose one): matte / gloss (please specify when ordering)
Care: indoor use only · keep dry · avoid prolonged contact with water · no abrasives · store away from direct sunlight and heat.

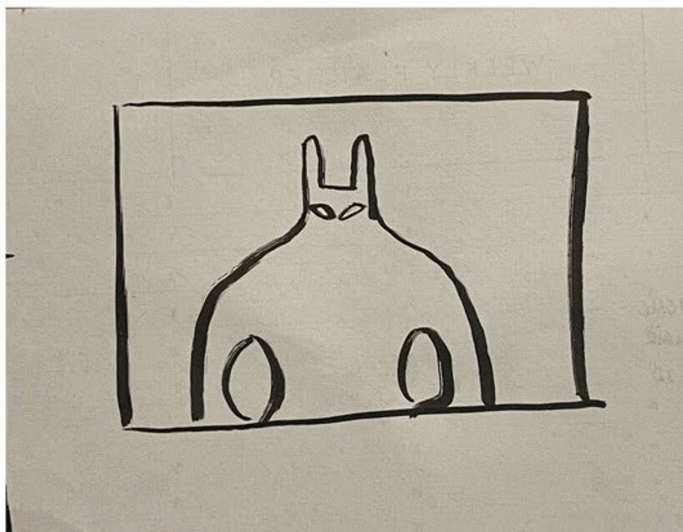

about arist

ALEXIS OLIN is a multidisciplinary artist working across painting, sculpture, digital art, photography, illustration, and textile design. His career spans more than two decades and is shaped by a lifelong fascination with visual systems, emotional patterns, and habitual processes. Known for fusing precision with instinct, his work explores the tension between structural control and raw expression.

In recent years, his practice has evolved into a hybrid dialogue between analog and digital media. His paintings, sculptures, and visual works created with acrylic, oil pastel, spray paint, photography, and digital techniques explore the intersection of habit and emotion, discipline and release. Recurring symbols including gloved hands, eyes, blades, rabbits, and abstract geometric forms appear throughout his work, evoking memory, childhood ritual, obsessive focus, and the fragile balance between tension and calm.
